Rest With Confidence.

Here's what sets Meaden & Moore apart from other firms: We *go well beyond* the standard audit procedures to provide technical expertise and sound business counsel that adds value to the audit experience. We *take the time to understand* your business, your market and your culture, so that we can provide you with advice and solutions that will help you *make the most of every business opportunity*.

Meaden & Moore earned a clean inspection report from the Public Company Accounting Oversight Board, the federal regulator under the Securities and Exchange Commission that assesses compliance with U.S. capital market auditing requirements. Our professionals are active with leading professional associations – including the American Institute of Certified Public Accountants, the Ohio Society of CPAs, the Center for Audit Quality, and the Association of Certified Fraud Examiners – to keep pace with emerging audit and assurance methodologies, which have changed dramatically over the past decade.

Comprehensive Assurance Services Include

- Financial statement audits and reviews
- Employee benefit plan audits
- Compilations to benchmark your performance against your competitors
- Service organization audits (known as SAS 70 or SSAE 16 audits)
- Internal audits

As we review and assess your financial position, we also help you look toward your future. How can you *improve* your internal financial reporting and controls? How can you assess the integrity of your financial and operational information? How can you maximize the success of your business? Our assurance professionals can advise you on enhancing financial reporting, assessing and improving internal controls and evaluating financial procedures. We help you *uncover and resolve* potential problems in areas such as cash control, credit policies, financial procedures and so many more that are *critical to your business success*.
